- Useful Environment
- References

- Useful Environment
  - Standard Environment
  - Customized Environment
- References

This is a demonstration of various environments. The first is `itemize`:

- ▶ Item 1
- ▶ Item 2
- ▶ etc.

Usually I'll use `enumerate` as well:

1. Item 1
2. Item 2
3. etc.

- Useful Environment
  - Standard Environment
  - Customized Environment
- References

All the common environments are available, e.g.,

- ▶ *Theorem*-related: lemma, theorem, corollary.
- ▶ *Common* environments: definition, example, problem.
- ▶ *Others*: prev, observe, assumption, remark, intuition.

I'll just show you two examples:

## Example (A demonstration)

This is an *example* environment.

As previously seen

*This is a prev environment.*
